

MEMBER ADVANTAGE PROGRAMS

It's our top priority that our members experience a positive return on investment. Membership grants you access to a host of empowering and cost-saving resources, including a health coverage program and substantial member savings partnerships. These membership benefits are designed to help companies track spending, control costs and improve efficiency. Many members find these savings exceed their membership investment.

SMART HEALTH PLAN

A new health coverage solution that can lead to more rate stability and potential savings for groups with 51-99 employees. Talk to your insurance professional to see if this plan is right for your business.
